The same way Adobe Improves in the past, I thing they can easily make a touch up version of Photoshop. Maybe it is possible for example to have some type of filters. It should be more direct to use the contact us. Most operations or size of the brushes should be to access. Maybe the brushes are hidden in the menu, it will be more fluidity. Another thing I noticed is that the brushes are not always the same size. I would really like to have a few more of them and the improvements would be perfect. It would also be great if one can refine the edges of the shape using the tool set. Also, they can just drag the shape, a basic version of the eraser. This app is the best way to get your photography editing process started. And, as the name implies, this app has the ability to edit in a variety of different ways. Some of the options may be a little different from programs like shutter+lightroom or similar programs that are used online. But in this app, you can modify the right tool on the streets, as long as you have your camera. You can edit the image with different features, make sure it is the exact you want. The app offers a diverse range of graphs that some photographers take into a photo editing, not to mention the basic editing). As a platform, I have the following problems. In earlier versions, there was not an option to buy the app. After that, I can only download a copy for the device. Although now, there is an option to purchase the app. There have been improvements in some areas. But unfortunately, there are still hints of old menus and windows that the user is confused. It's hard to understand how to use the app, because of he language used, the interface is often a bit window. The newly updated User guide is still in the process of trace, and I'm sorry, I have not found the where the new updates are. I do not know what improvements were made to the update, as this version is still a few days old. So very disappointed that the app has not been updated.
